

HF 315-001-007**Adv. Peer Health Education****1 Credit****J. McDonald****TBD**

An expansion of concepts covered in Peer Health Education by allowing students to fine tune their health promotion and peer counseling skills. Students will select specific areas of interest and will work closely with other Peer Health Educators and the instructor to plan, implement, and rigorously evaluate outreach programs on campus. The course will focus on building leadership and communication skills and on deepening the expertise of the students on college health related issues.

Prerequisites HF 215 and permission of the instructor.

Not for liberal arts credit. May be repeated for credit.

CS-275H.001-005**Computer Science Research****1 Credit****M. Eckmann****A. Prasad****D. Read****C. Reilly****D. Vuvan****TBA**

An introductory exploration of research in computer science. The students, in collaboration with a faculty mentor, will participate in a research project in a particular area of computer science. The research projects may, for example, include designing new algorithms for computational problems, surveying the research literature, implementing existing algorithms from the research literature, or performing computational experiments.

TBD

Exploration of a research topic in mathematics. The students, in collaboration with a faculty mentor, will participate in a research project in a particular area of mathematics, which may be related to the faculty member's research program.

Prerequisites: permission of the instructor. Students may only take four MA 275H courses in their careers and may take no more than two in any given semester. If two are taken in a single semester, each must be a different section.

MA275H may not be counted toward the MA major. Must be taken S/U.
